Follow-up reminders shouldn't depend on anyone's memory.

Swipe for the breakdown →

01

Color rules that change the row color when the next step is due today or overdue

02

A view that only shows the leads to contact today

03

A follow-up count for each lead, so you know when to stop

04

A daily summary sent by email or shown on a dashboard

“

The most valuable automation removes a small decision you make over and over every day.

How does your team remember follow-ups?
