Three companies. Three very different products. One problem.

Swipe for the breakdown →

01

Role-based access for owners, HR and sales staff

02

A pipeline status for every lead, from new enquiry to closed

03

WhatsApp message templates, so the first reply never depends on mood

04

CSV import, so ad leads are never typed in by hand

05

A marketing dashboard the owner can read in two minutes

“

You rarely need more leads first. You need to stop losing the ones you already paid for.

What does your team use today to track every enquiry?
